

Kyos epitomises the concept that good design does not mean a high cost. Kyos with a breathable back and multiple frame options makes Kyos a universal multi-purpose seating range. Kyos chairs can be stacked up to four high and a trolley can be provided for easy transportation.

An optional writing tablet is available with or without a linking device which makes it suitable for learning environments, conferences and meeting rooms.

## Features

Components are constructed of the following

**Recycled Content**

Contains up to 27.50% of Recycled Material

**Recyclability**

The range is 99% recyclable

99%

Environmental information for this range has been based on KS1. For more detail please refer to individual EPA sheets.

**The Senator Group 3 R's**

The Senator Group is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

**-Reduce, Reuse and Recycle.**

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce  
Reuse  
Recycle
